WATER RIGHTS  
SALT LAKE

Michelle:

In response to your update report dated May 21, 1993, I have sent you these water quality reports. As part of our water discharge permit we are required to sample water to be tested and a quartely report sent in to the Division of Water Quality on the results. Also the Division of Water Quality does their own testing each quarter and sends me the results.

I hope these reports will fulfill your requirements for water quality. If there is any further questions concerning these reports, please feel free to contact me at 255-7153.

Sincerely,

Carl Foy  
Enviromental Control
